

# LEVEL CROSSING REMOVAL UPDATE

HURSTBRIDGE LINE  
ALPHINGTON | FAIRFIELD  
JANUARY 2018

The Victorian Government is removing two dangerous and congested level crossings along the Hurstbridge line, building a brand new Rosanna Station, and duplicating the single section of track between Heidelberg and Rosanna. This will make communities safer and get commuters in Melbourne's north east home sooner.

The major construction blitz from Friday 16 March to Monday 30 April is nearly here and the Grange Road team is almost ready to start the big dig to construct the new rail trench.

Just before the summer break, we continued drilling along sections of Wingrove Street. The line-drilling machine will be back during the rail shutdown from 18 to 23 January 2018, to drill across Grange Road. You will also see us working on the concrete rail safety barriers, installing new overhead rail structures and abutments for the two new pedestrian bridges.

Local traders will be open during our works, so please support businesses in the area.
